

Isusu Ffena Corona Guidelines

We are excited to be hosting you at our annual festival this year. However, we recognise that this year has been a special one in terms of hygiene requirements and we wish to take all the necessary measures to keep you and ourselves safe.

- There is a **limited number of tickets** that will be sold due to the capacity of the rooms that we have in order to be able to keep sufficient distance between our guests
- Please **buy event tickets online** as this facilitates a contactless transfer. We are currently selling tickets on Eventbrite where we will have access to email addresses of participants. This information will be used to inform our guests in case there is a threat of infection.
- If there are extra seats available these may be opened up to those who have not registered yet, however it will be required of such guests to fill out an online form at the door, **on their own devices**, so as to be able to have a comprehensive list of guests.
- **All of our guests are required to carry a face mask** upon entry and exit. Face masks shall also be worn whenever guests move around the room and it is advised to keep the mask on during the event, even when guests are seated.
- We advise all our guests to keep a distance of **1,5 metres** from other guests. The chairs and signs in our event space will be set up to help facilitate this. A maximum number of 4 guests are allowed to sit together if they can prove that they are coming from the same household.

- We advise all our guests to **regularly sanitize their hands** and **avoid physical contact with other guests**. Hand sanitizers will be made available for our guests at the exit and entry points and in the toilets.
- Guests who are showing any corona related symptoms are strongly advised, for their own safety and that of other, **to stay at home**. As the organizers of the event, we are not permitted to let in any body showing symptoms.
- We strongly recommend that high risk individuals do not attend the event.
- We strongly recommend people coming from high risk areas (Risiko Gebiete) not to attend the events.
- Please take the time to read the signs hung up in the space and feel free to contact any of the staff members if you have a health safety concern.
- **The event will have differentiated entry and exit points**. Please make sure to stick to this flow of traffic.
- **Dancing is not permitted indoors**.
- **Our rooms will be disinfected before and after every event**. Especially surfaces that will come in contact with our guests such as chairs and table tops.
- The hygiene requirements will be printed out and visible at each of our events.
- We suggest that our guests additionally download the **Corona Warn App** in order to be able to track any infection chains more efficiently.

Thank you for your cooperation to keep us all safe!
